

# Immediate Aid - March 17, 2022

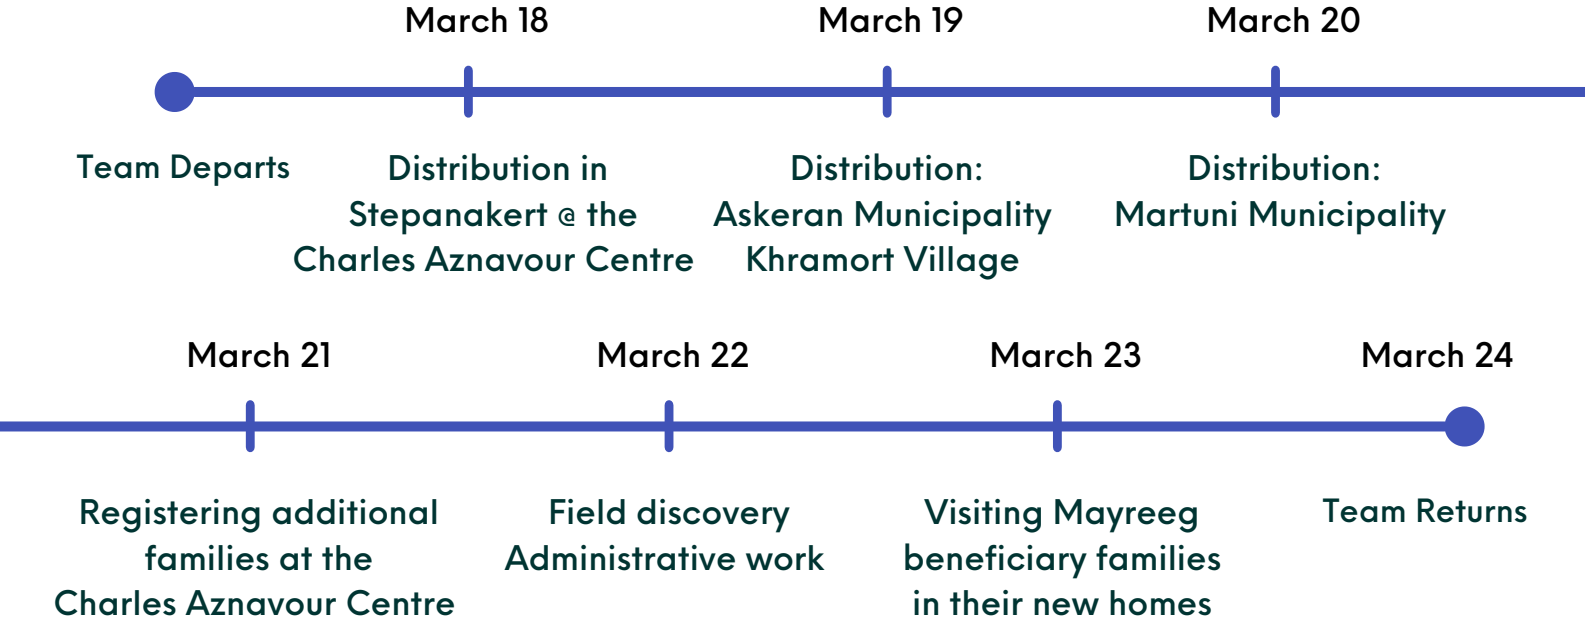

## Artsakh Gas Crisis Response

On March 8, the entire gas supply of Artsakh was cut due to the direct intervention of Azerbaijan. As a result, Artsakh has been experiencing a humanitarian crisis. Our team responded to direct asks from beneficiary families and municipality leaders who asked for 'electric heaters and electric burners'. As such, we launched a fundraiser to provide electric heaters and electric burners to our registered beneficiary families.

**Departure: March 17, 2022**  
**Return: March 20, 2022**

**Bump on the road:** The trip was intended to last 3 days, but due to the extreme cold weather circumstances and consequential road closures, the trip was extended to 6 days.

**What we accomplished:** Thanks to the generous support of our donors, we were able to seriously grow our impact. Not only did we provide support for 80 previously registered beneficiary families, but also registered an additional 39 families in our database.

### Purchased Aid

#### Approximate Amount (AMD)

160 Heaters: 1,040,000  
75 Double Burners: 703,100  
71 Single Burners: 560,900
